# Contents to Volume 44 (1991)

## Number 1 – January 1991

**Editorial** 1

**Guest Editorial**
Pain *can* kill
J.C. Liebeskind (U.S.A.) 3

**CLINICAL SECTION**

*Review Article*
Neglected topics in the treatment of chronic pain patients — relapse, noncompliance, and adherence enhancement
D.C. Turk and T.E. Rudy (U.S.A.) 5

*Research Reports*
Psychological distress and diagnostic subgroups of temporomandibular disorder patients
C.P. McCreary, G.T. Clark, R.L. Merril, V. Flack and M.E. Oakley (U.S.A.) 29
The contributions of interpersonal conflict to chronic pain in the presence or absence of organic pathology
J.A. Faucett and J.D. Levine (U.S.A.) 35
Situational and psychophysiological factors in psychologically induced pain
T.L. Bayer, P.E. Baer and C. Early (U.S.A.) 45
Pain and impairment beliefs in chronic low back pain: validation of the Pain and Impairment Relationship Scale (PAIRS)
M.A. Slater, H.F. Hall, J.H. Atkinson and S.R. Garfin (U.S.A.) 51
A comparison of two-point discrimination threshold of tactual, non-painful stimuli between chronic low back pain patients and controls
M.L. Peters and A.J.M. Schmidt (The Netherlands) 57
Depression in spouses of chronic pain patients: the role of patient pain and anger, and marital satisfaction
L. Schwartz, M.A. Slater, G.R. Birchler and J.H. Atkinson (U.S.A.) 61
The effects of experimenter gender on pain report in male and female subjects
F.M. Levine and L.L. De Simone (U.S.A.) 69
Iontophoresis versus subcutaneous injection: a comparison of two methods of local anesthesia delivery in children
L. Zeltzer, M. Regalado, L.S. Nichter, D. Barton, S. Jennings and L. Pitt (U.S.A.) 73

*Clinical Note*
Sympathetically maintained pain of the digits in porphyria cutanea tarda relieved by i.v. regional guanethidine
J.E.L. Owen (Canada) 79

**BASIC SECTION**

*Research Reports*
Effects of vagal afferent stimulation on cervical spinothalamic tract neurons in monkeys
M.J. Chandler, S.F. Hobbs, D.C. Bolser and R.D. Foreman (U.S.A.) 81
Effects of iontophoretic etorphine and naloxone, and electroacupuncture on nociceptive responses from thalamic neurones in rabbits
L. He, W.-q. Dong and M. Wang (People's Rep. of China) 89
The 'tonic' pain-related behaviour seen in mononeuropathic rats is modulated by morphine and naloxone
F. Jazat and G. Guilbaud (France) 97

## Number 2 – February 1991

**Guest Editorial**
Analysis of clinical outcome of a surgical procedure
J.M. Gybels (Belgium) 103

**CLINICAL SECTION**

*Research Reports*
Post-herpetic neuralgia: further post-mortem studies of cases with and without pain
C.P.N. Watson, J.H. Deck, C. Morshead, D. Van der Kooy and R.J. Evans (Canada) 105

Spinal cord stimulation for chronic, intractable pain: superiority of "multi-channel" devices
R.B. North, M.G. Ewend, M.T. Lawton and S. Piantadosi (U.S.A.) 119
Study of experimental pain measures and nociceptive reflex in chronic pain patients and normal subjects
F. Boureau, M. Luu and J.F. Doubrère (France) 131
Predicting low back pain patients' response to lumbar sympathetic nerve blocks and interdisciplinary rehabilitation: the role of pretreatment overt pain behavior and cognitive coping strategies
G.H. Connally and S.H. Sanders (U.S.A.) 139
Prevalence of HLA-B27 in patients with back pain attending a pain clinic
M. O'Connor and C.J. Glynn (U.K.) 147
The analgesic effects of caffeine in headache
N. Ward, C. Whitney, D. Avery and D. Dunner (U.S.A.) 151
Interethnic differences in pain perception
H.P. Greenwald (U.S.A.) 157
The "two week syndrome" associated with injection treatment for chronic pain — fact or fiction?
K.A. Milligan and R.E. Atkinson (U.K.) 165

*Clinical Notes*
The Edmonton injector: a simple device for patient-controlled subcutaneous analgesia
E. Bruera, K. MacMillan, J. Hanson and R.N. MacDonald (Canada) 167
Idiopathic trigeminal pain associated with gustatory stimuli
Y. Sharav, R. Benoliel, A. Schnarch and L. Greenberg (Israel) 171
Levels of morphine and metabolites in CSF during respiratory depression after intraventricular morphine injection
A. Langlade, A. Serrie, P. Sandouk, C. Thurel and G. Cunin (France) 175

**BASIC SECTION**

*Research Reports*
Neurokinin and NMDA antagonists (but not a kainic acid antagonist) are antinociceptive in the mouse formalin model
C.W. Murray, A. Cowan and A.A. Larson (U.S.A.) 179
Effects of spinal kappa-opioid receptor agonists on the responsiveness of nociceptive superficial dorsal horn neurons
J.L.K. Hylden, R.L. Nahin, R.J. Traub and R. Dubner (U.S.A.) 187
The antinociceptive effects of anterior pretectal stimulation in tests using thermal, mechanical and chemical noxious stimuli
D.G. Wilson, H. Rees and M.H.T. Roberts (U.K.) 193
Quantitative characterization and spinal substrates of antinociception produced by electrical stimulation of the subdiaphragmatic vagus in rats
C.L. Thurston and A. Randich (U.S.A.) 199

**Announcement from the Publisher** 209

## Number 3 – March 1991

**Editorial Comment**
Pain and hyperalgesia following tissue injury: new mechanisms and new treatments
R. Dubner 213

**CLINICAL SECTION**

*Research Reports*
Long-term spinal administration of morphine in cancer and non-cancer pain: a retrospective study
J.L. Plummer, D.A. Cherry, M.J. Cousins, G.K. Gourlay, M.M. Onley and K.H.A. Evans (Australia) 215
An in-depth study of long-term users of transcutaneous electrical nerve stimulation (TENS). Implications for clinical use of TENS
M.I. Johnson, C.H. Ashton and J.W. Thompson (U.K.) 221
The consistency of pulse frequencies and pulse patterns of transcutaneous electrical nerve stimulation (TENS) used by chronic pain patients
M.I. Johnson, C.H. Ashton and J.W. Thompson (U.K.) 231
Deep pain measurement at tender points by pulse algometry with insulated needle electrodes
K. Kawakita, T. Miura and Y. Iwase (Japan) 235
Increased postoperative pain and consumption of analgesics following acupuncture
A. Ekblom, P. Hansson, M. Thomsson and M. Thomas (Sweden) 241
L-Tryptophan supplementation does not affect postoperative pain intensity or consumption of analgesics
A. Ekblom, P. Hansson and M. Thomsson (Sweden) 249
Sex differences in the perception of noxious heat stimuli
J.S. Feine, M.C. Bushnell, D. Miron and G.H. Duncan (Canada) 255
Self-efficacy and outcome expectancies: relationship to chronic pain coping strategies and adjustment
M.P. Jensen, J.A. Turner and J.M. Romano (U.S.A.) 263
Psychological events are both risk factors in, and consequences of, chronic pain
A. Gamsa and V. Vikis-Freibergs (Canada) 271

Epidemiology of pain in New Zealand
F.R. James, R.G. Large, J.A. Bushnell and J.E. Wells (New Zealand) 279

*Clinical Notes*
Disappearance of thalamic pain after parietal subcortical stroke
E.D. Soria and E.J. Fine (U.S.A.) 285
Phantom-related phenomena after rectal amputation: prevalence and clinical characteristics
P. Ovesen, K. Krøner, J. Ørnsholt and K. Bach (Denmark) 289

**BASIC SECTION**

*Research Reports*
The induction and maintenance of central sensitization is dependent on *N*-methyl-D-aspartic acid receptor activation; implications for the treatment of post-injury pain hypersensitivity states
C.J. Woolf and S.W.N. Thompson (U.K.) 293
The consequences of long-term topical capsaicin application in the rat
S.B. McMahon, G. Lewin and S.R. Bloom (U.K.) 301
Effects of electrical stimulation of vagal afferents on spinothalamic tract cells in the rat
K. Ren, A. Randich and G.F. Gebhart (U.S.A.) 311
Intrathecal injections of galanin and its antiserum affect nociceptive response of rat to mechanical, but not thermal, stimuli
Y. Kuraishi, M. Kawamura, T. Yamaguchi, T. Houtani, S. Kawabata, S. Futaki, N. Fujii and M. Satoh (Japan) 321

**LETTER TO THE EDITOR**

Leakage of fluid after epidural injection
T.L. Yaksh (U.S.A.) 325

**Announcement from the Publisher** 326

**Author Index to Volume 44 (1991)** 327

**Contents to Volume 44 (1991)** 330
